

“Why is life on Earth so varied?”

This homework grid is a suggestion of homework activities. Your child can choose any activity from this homework grid or do another activity of their choice linked to our topic.

<u>QUIZ TIME</u>	<u>FOSSIL BUILDER</u>	<u>POETRY</u>	<u>TIMES TABLES CHAMPION</u>	<u>DRAWING</u>
<p>Design a quiz with 10 questions about dinosaurs. Remember to include the answers! Can you play your quiz with different members of your family?</p>	<p>Create a 3D model of a fossil. You could use lolly sticks, straws, play-doh, newspaper or anything you have laying around the house!</p>	<p>Write an acrostic poem using either the word EVOLUTION, FOSSILS or DINOSAUR – each line must contain a description or information about the about the subject.</p>	<p>Practise your times tables for at least 30 minutes. You could use TTRS or any other method. You can ask your teacher for a worksheet if you want something to practise from.</p>	<p>Draw a picture showing the variety of life on Earth. It should be detailed and carefully done. You can use the examples below to copy or create your own.</p>  
<u>DESIGN</u>	<u>WORDSEARCH</u>	<u>EXPLORER</u>	<u>WATCHING</u>	
<p>Design a poster that promotes the importance of all life on Earth.</p>	<p>Make your own word search using words linked to evolution and life on Earth.</p>	<p>You are planning a trip back in time to the Jurassic era (dinosaurs). Draw all the items you would need to pack and explain why you need them. Remember: don't pack too much because you'll have to carry it yourself; the Jurassic can be a dangerous time!</p>	<p>Watch an episode of a David Attenborough documentary. Create an information poster showing all you learnt from the video. Your poster should be informative and eye-catching.</p>	

Please ensure your child's homework is handed in on **Monday** every week.
